

Treadmill RHO

The KYLIX treadmill has been designed to train your horse in a minimum amount of space. You can train your horse adequately and safely on the KYLIX treadmill.

INNOVATION - QUALITY - SERVICE

- Direct slip-free drive
- Minimum maintenance needed
- Several safety devices
- Energy saving
- All steel parts are hot-dip galvanized
- Including control unit
- CE / NEMA / UL / CSA drive

You can train your horse safely and adequately. Furthermore, the KYLIX treadmill helps you to keep your horse in top condition. Training on the treadmill enhances the cardiac function by 50%, without causing detrimental cardiac enlargement. The transport of oxygen through the blood vessels is increased and the muscles overacidify less.

Training on the KYLIX treadmill corresponds to a good cross-country ride, the only difference is that you train on 3m² and you are able to control your horse better during the training. The programmable walk/trot control unit allows a target-oriented training of your horse.

Treadmill RHO

Technical data Treadmill:

Dim. L x W x H with ramps	ca. 5.7 * 1.5 * 1.9 metres
Dim. L x W x H without ramps	ca. 3.5 * 1.5 * 1.9 metres
Number of horses	1
Drive	Heavy duty gear with direct drive
Supply voltage	400 Volt – 50 Hz – 5.5 kW; electric mains 3-phase with earthing
Protection	Hot-dip galvanization
Tread	Super grip rubber tread
Width tread surface/track	ca. 80cm
Length tread surface/track	ca. 300cm
Ramp	On the front and on the back
Side panels	Protecting side panels, left and right
Safety devices	Infrared light barrier Emergency stop on each side Safety bars with automatic opening

Programmable control unit:

Speed	0 – 12 km/h, optionally 20 km/h
Start/Stop	Manual/Automatic
Casing	Polyester IP65
Complies with	CE Standard
Duration of walk	1 – 59 minutes per programme section
Speed	0 – 12 km/h, variably adjustable for each programme section
Number of training sessions	20 training sessions, 10 preset, 10 individually programmable
Number of programme sections	6 sections per programme
Display	Number of programme, speed and time, inclination of tread, total time of the programme
