MOBILE AQUATRAINER

MOBILE AQUATRAINER

First MOBILE AQUATRAINER

The Aquatrainer by Kylix is also available as a mobile unit. For this purpose, the Aquatrainer is mounted on a chassis, a so-called tractor with trailer. It is a completely self-supporting structure: Aquatrainer, treadmill, power unit, 3,500 litres of water in the water tanks, filter and massage jets, if present. All these components are mounted on the tractor with trailer. Dimensions of the trailer while driving: 7.5 m x 2.2 m, and a height of 3.2 m. Trailer, extended: 14.5 m x 2.2 m. Like all other Kylix products, this mobile combination will be designed in consultation with our customer.

Technical specifications Aquatrainer

Dimensions	L x W x H = 3,6 x 2,2 x 2,0 metres
